ABOUT THE SEMINAR

The State of Manipur forms part of the Global Biodiversity Hotspots. Of the two Hotspots areas in the North Eastern region of India—Eastern Himalayan Biodiversity and Indo-Burma Biodiversity Hotspots, the State of Manipur belongs to Indo-Burma Biodiversity Hotspot and she is richly endowed with diverse floral and faunal species in diverse ecosystems. Manipur's diverse ecosystems include tropical forest, sub-alpine and temperate forests, over 4,000 angiosperm species, 430 medicinal plants, 34 edible fungi species, 500 orchid species, 55 bamboo species, 40 endemic rice cultivars, 160 fish species and 21 migratory aquatic birds among many others. However, the state's rich biodiversity is facing degeneration. So, the main objective of the seminar is to highlight and educate on the impacts and conservation of the biodiversity in sustainable way.
